

Haryana VAT Assistance for Industries Using Cleaner Fuels

DRAFT FOR REVIEW | SCHEME | D057

Designated reviewer: Atul Goyal. Review pending. PDF prepared 15 September 2026 from the current repository manuscript. This drafting date is not a verified review, approval or source-verification date.

Haryana's December 2022 cleaner-fuel VAT assistance addressed part of the tax paid on qualifying natural-gas purchases by eligible industries. It is an operating-cost incentive. The cost of converting a boiler or installing new equipment belongs to a separate project calculation.

The December 2022 notification describes a two-year period starting on 1 April 2022. A later upload date on the government website does not extend that period. Check any subsequent order before including assistance for later fuel purchases.

What the notification says about fuel

The quantum provision provides 50% assistance on VAT paid on natural gas, in piped or compressed form, within the scheme conditions. Although the wider objective discusses cleaner fuels, the claim should follow the fuel specified in the operative assistance provision. LPG or another fuel should not be assumed to receive the same treatment.

The notification covers the specified categories of operating industry and conditions relating to cleaner-fuel use or conversion. The unit's location, activity and relevant dates should be checked before calculating the tax amount.

Work from fuel purchases and tax payment

Prepare a period-wise schedule of gas purchases, quantities, supplier invoices, VAT and banking payments. Reconcile the fuel supplied to the eligible unit's operation. Where a company has several plants, identify the consumption and purchases attributable to the claiming unit.

Keep the fuel-supply agreement, relevant conversion or commissioning evidence, registrations and permissions alongside the tax working. The claim should make it possible to follow the proposed assistance back to an actual eligible purchase and the applicable period.

Reviewing an older claim

Bring earlier submissions, acknowledgements, sanction decisions and correspondence into the file. They establish whether the matter concerns an unfiled historic expense, a pending claim or a release under an existing decision. Each position can require a different procedural assessment.

Read the [VAT Assistance notification](#). For expenditure on the boiler itself, see [Boiler Conversion Assistance](#). Confirm the applicable current fuel directions separately from the subsidy assessment.

Discuss the next step

For help assessing the project and preparing the applicable subsidy work, see [Subsidy & Incentive Advisory](#).
